

Statutes on Public Law and Human Rights (Blackstones Statutes)

A comprehensive and up-to-date selection of the most important legislation on public law and human rights. By carefully selecting only the provisions actually needed for university courses in these subjects, the book is kept to a compact and manageable size. As there is no commentary, it is also suitable for use in examinations. Blackstones Statute Books cover all the core law subjects and many options. The books have been designed on the basis of extensive research into the content of courses, and contain all the necessary statutes and statutory instruments. All the volumes for the main law subjects and minor options are updated annually to ensure that they are completely up to date with all the important developments in the law.
