

Advancing Refugee Protection in South Africa (Human Rights in Context)

Divided into three thematic parts to guide the reader, this important volume documents the development and implementation of refugee policy in South Africa over a 10-year period from 1996 until 2006. In doing so, it addresses issues of detention, gender, children and health as well as welfare policies for refugees. The contributions, all written by academics and practitioners of refugee protection, vividly illustrate the tangible shifts and concerns of a process that is not only aimed at establishing policies and legislation but also practices concerning refugees.
