

## The Fall River Tragedy: A History of the Borden Murders

Lizzie Borden Took an Axe... When the assassination of Andrew J. Borden and Abbie D Borden, his wife, was announced, not only the people of Fall Rive: and of Massachusetts, but the public throughout the country manifested the deepest interest in the affair. The murders soon became the theme of universal comment, both in public and private and every newspaper reference to the affair was read with eagerness digested and commented upon in a manner unprecedented. The crimes stand out in bold relief as the most atrocious, and at the same time, the most mystifying which the American public had ever before been called upon to discuss. They had about them that fascination of uncertainty, horrible though they were, which fixes the attention and holds it continually. Miss Lizzie A. Borden, a daughter of the murdered man, was arrested and charged with the killing. She was a young woman of hitherto spotless reputation and character, and more than that she was educated, refined and prominently connected with the work of the Christian church in Fall River. Her arrest added more and more to the interest which the public had taken in the matter. She was tried before the Superior Court of Massachusetts and a jury of her peers and found not guilty of the crimes. This event settled beyond question the probability of her guilt, and yet the case lost none of its absorbing interest. The author of this book therefore, has for a purpose the desire to give the reading public a connected story of the whole case, commencing with the day of the tragedy and ending with the day that Miss Borden was set free. Persons believing implicitly in the correctness of the findings of the jury at New Bedford will see much wrong done in those chapters which treat of the police work. But that the grand jury indicted the young lady is no fault of the author, and the story of what brought that indictment about is

important, therefore it is given without prejudice. Harsh words were said of Miss Borden, but they came from those who had a sworn duty to perform, and they alone are responsible. Her defense is given as freely as the case of the prosecution, and with it the history is made as complete as was possible. The facts discussed came from official sources and are dependent upon the testimony submitted at the court trials. Watch for: Assassination of Lincoln From all this it appears that the time has come when a clear, concise history of this conspiracy and trial should be given to the world. To this task the writer has addressed himself, and he offers this volume as the result of his labors. The facts herein narrated in regard to the assassination, as well as to the parts enacted by each of the individual members of the conspiracy, are drawn from the testimony before the Commission. They have been thrown into the form of a connected narrative, and there has been nothing stated as a fact but what is fully sustained by the evidence which formed the basis of the decisions of the Commission. Nothing has been admitted into this narrative but what rests on the specific testimony of unimpeachable witnesses. The author only deems it necessary that the opinion, or belief, of Father Walter, and all others of his persuasion, shall be confronted by the testimony in the case, in order that an intelligent judgment shall be reached. At the time of this trial there were just two classes of people in this country the friends and the enemies of the government. The former were united and determined in their purpose and effort to preserve and perpetuate the government established by our fathers under the constitution that included in its purpose and provisions the union of the states and made us a nation. The latter were madly bent on its overthrow, and so judged favorably or unfavorably of the occurrences of the times, as they tended to favor or hinder the accomplishment of their purposes.
